

Strategy Runner Now Offered by Advantage Futures

Strategy Runner, the pioneer and leader in advanced trading solutions for active, professional traders, announced today their partnership with Advantage Futures, the pre-eminent clearing firm for demanding professional and institutional traders.

Chicago, IL ([PRWEB](#)) July 30, 2009 -- Strategy Runner Ltd, the pioneer and leader in advanced trading solutions for active, professional traders, announced today that they are now fully-supported by Advantage Futures, the pre-eminent clearing firm for demanding professional and institutional traders.

Advantage Futures and Strategy Runner have completed the technological integration enabling Advantage Futures clientele to leverage Strategy Runner's algorithmic trading solutions and robust server based technology.

"Strategy Runner is pleased to join forces with Advantage Futures which has distinguished itself for its execution excellence and service" said Yakov Becker, CEO of Strategy Runner. "This relationship will enable Advantage Futures' clientele to take advantage of our professional trading services including its trading platform, strategy development and strategy hosting services. This enables Strategy Runner to extend our renowned trading solutions to a new group of professional traders, CTAs, hedge funds and other financial institutions."

"Advantage Futures is excited to offer and support Strategy Runner to our clients and provide them with additional front-end choices," said Joe Guinan, Chairman and CEO of Advantage Futures. "Strategy Runner is preferred by many traders in the industry and this offering will help expand our clientele."

About Advantage Futures:

Advantage Futures is a premier futures brokerage firm for institutions, hedge funds, CTAs, proprietary trading groups and professional traders, with best-in-class clearing and execution services, provided with high-quality client service and technologically efficient solutions. We provide clients with a superior technology infrastructure, redundant exchange connectivity and 24-hour technology support. Our multimillion dollar investment in state-of-the art equipment provides our clients with extremely fast trading delta times while ensuring reliability and security. Advantage Futures technology investment also includes server hosting facilities, robust exchange connectivity, and fully redundant back office and accounting systems. We support trading on almost all domestic and foreign exchanges either through our direct clearing memberships or through various correspondent broker relationships. Our management team has extraordinary industry experience and a strong reputation for integrity. For more information, call Advantage Futures at 312-756-6300 or visit www.advantagefutures.com.

About Strategy Runner:

Strategy Runner Ltd. (www.strategyrunner.com) offers powerful, innovative, server-based technology for fully automated algorithmic trading solutions that integrates the needs of both buy- and sell-side institutions to access, automate, distribute and execute trading algorithms. It provides flexible, customizable solutions for centralized secure distribution of broker-supplied algorithms over multiple assets, accounts and clearing firms. Operating from offices in Chicago, Tel-Aviv, Toronto, Moscow, Singapore and Rome, Strategy Runner has become one of the world's leading providers of fully automated trading solutions in the derivatives trading industry.
